Why rent your AI models when you can own them?

Increase privacy and compliance

Tailor models to your use cases

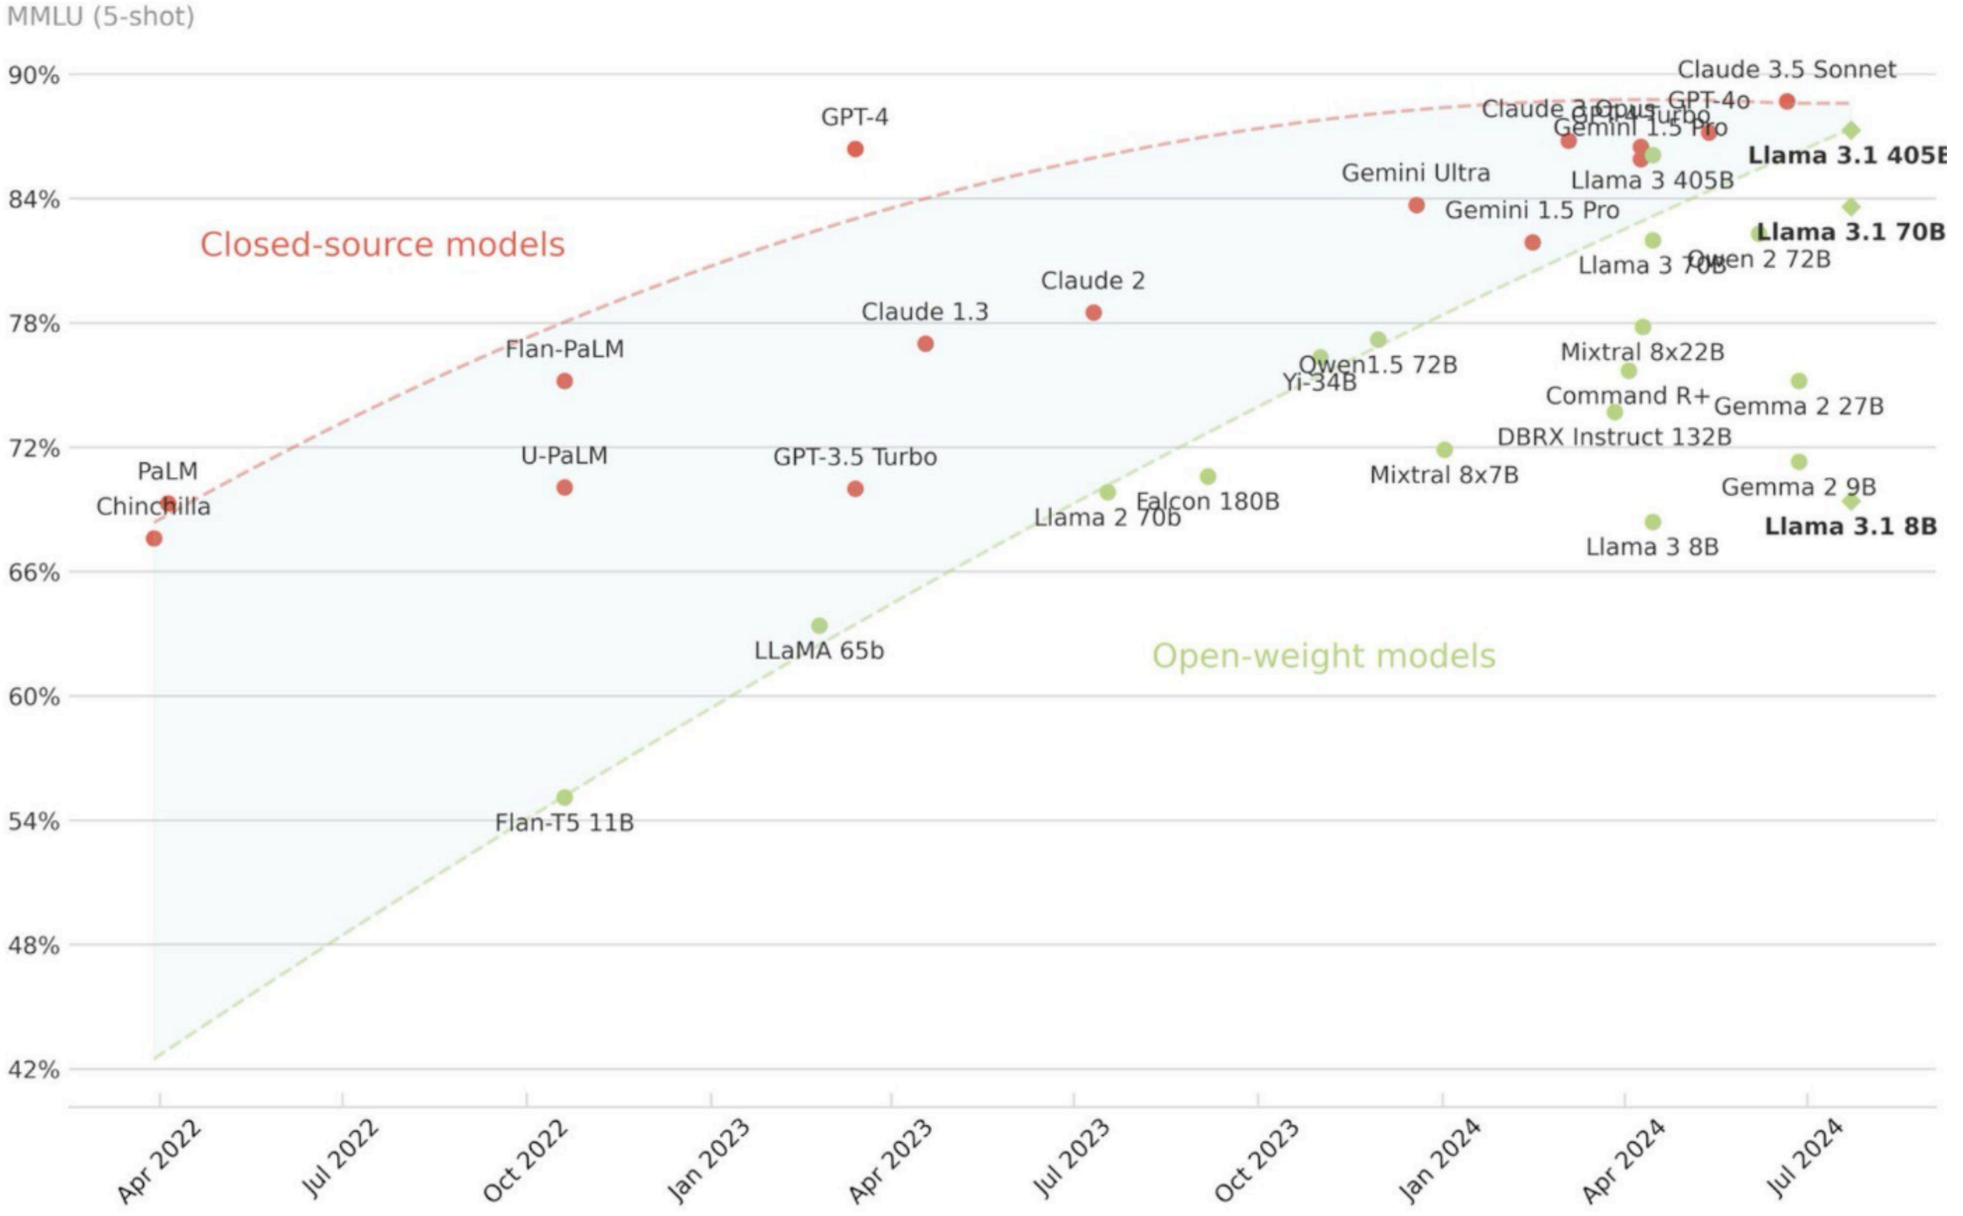
Right-size cost-performance

Maximize ROI

Closed-source vs. open-weight models

@maximelabonne

Llama 3.1 405B closes the gap with closed-source models for the first time in history.



Arcee.ai - The Open SLM leader

State-of-the-art tailoring stack

Spectrum (continuous pre-training), MergeKit (merging), DistilKit (distillation), EvolKit (dataset improvement)

Best-in-class models based on open architectures

Qwen2 1.5B

Llama 3.1 8B

Qwen2 72B

Llama 3.1 70B

Best 1.5B model

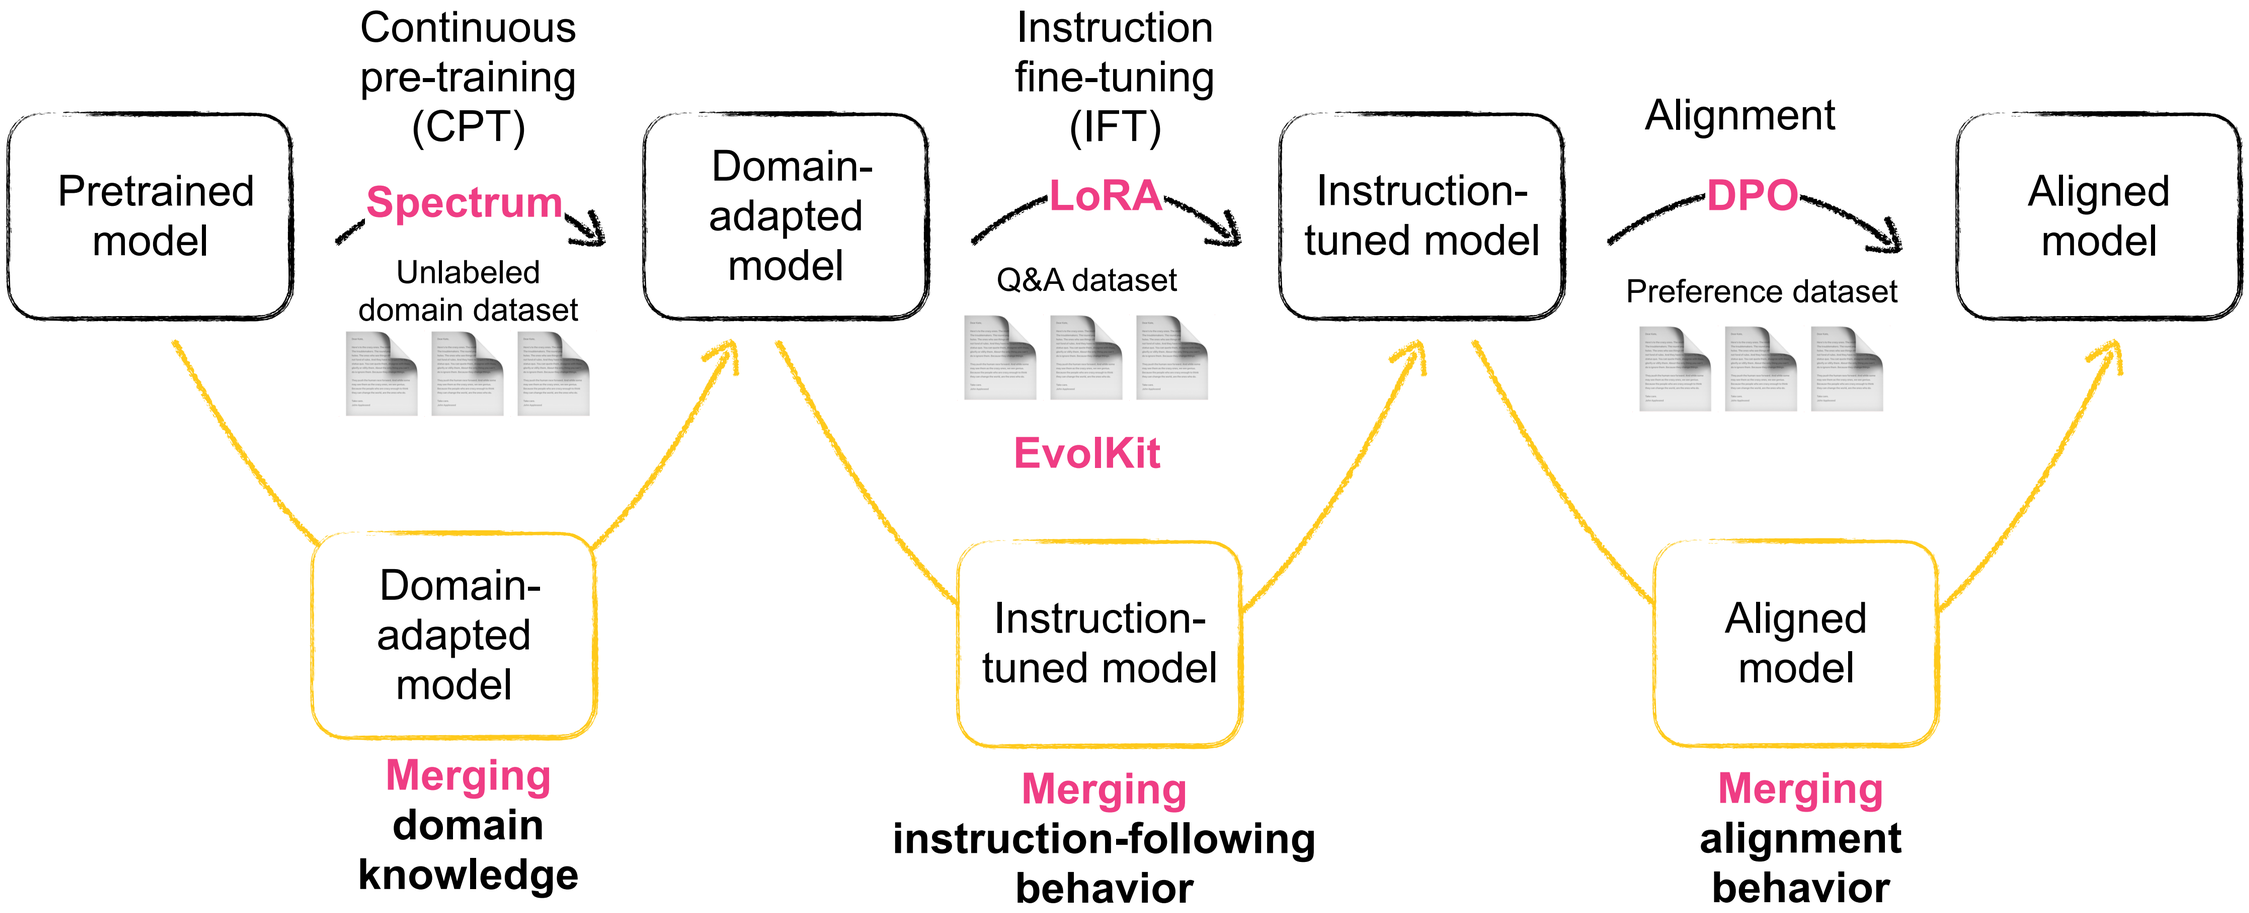
Best 8B model

Best Arabic model

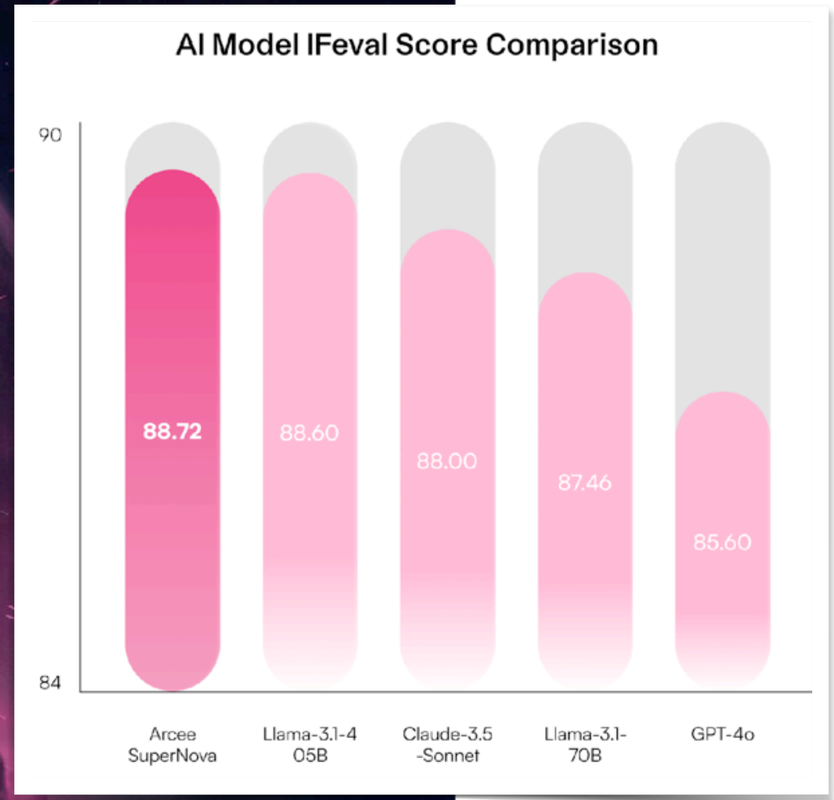
Best 70B model

Hugging Face OpenLLM Leaderboard benchmarks

A modern model adaptation workflow



Merging steps can be combined, e.g., merge with a domain-adapted and aligned model



Try it at supernova.arcee.ai
Book a demo at www.arcee.ai/book-a-demo
Deploy it in one click on the AWS Marketplace

Bye bye closed models

AI is changing all businesses.
Make it yours and own it.
